Linux Magazine ISSN 1471-5678
Linux Magazine is published monthly by Linux New Media Ltd, Manchester, England. Company registered in England.

Natural Language

Science fiction authors and high-tech visionaries dream of a future where humans and computers communicate in ordinary English. A new cloud-based tool brings that future a little closer.

14 Maluuba nAPI

You don't have to be a linguist to wield the power of natural language processing. Maluuba's innovative nAPI interprets ordinary text and passes it to your program in machine-readable form.

Community Notebook

90 Kernel News

Zack reports on a global hash table, kernel development history, a possible GPL violation, and KVM maintainership.

94 Doghouse: Memory Collection

Drafting tables, slide rules, and a 64-bit Alpha computer. maddog reflects on a high-tech life.

HIGHLIGHTS

14 MALUUBA NAPI

Build natural language capabilities into your own scripts and apps.

42 ARCHISO

Create a custom Arch-based Live Linux with this cool tool.

28 GIMP ANIMATION

The gifted GIMP can do much more than touch up your photos.

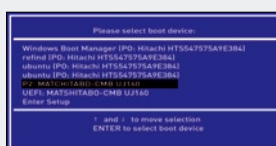

76 STEAM FOR LINUX

Take a peek at the Linux port for the Steam game platform.

FEATURES

22 Coping with UEFI

Read this if you ever plan to dual-boot your Linux with a UEFI-based Windows system

28 Animation with GIMP

GIMP plugins and scripts help you build your own animations.

34 Voice Chat with Mumble

A VoIP-based voice chat server will free your gaming cronies from the need to type text.

42 Archiso

The lean Arch Linux is the perfect tool for building a custom distro.

46 Ask Klaus!

Klaus Knopper answers your Linux questions.

50 ngrep

Extending the classic grep pattern-matching tool to the network.

54 Charly: ifdata

Script-friendly tool for monitoring network interface status.

56 Tckit

Cross-platform scripting without the need for an interpreter.

60 Perl: Tagging e-Books in Evernote

Storing metadata on e-books for easy search.

64 Security Lessons: Hash Maps

Security with data structures.

66 Tripwire

Has an intruder been on your system? Tripwire keeps watch over system files to detect any unexpected changes.

LINUXUSER

72 Workspace: Revive Old Netbooks

A mini-Linux will still run on the slim resources of old hardware.

76 Steam for Linux

We test drive the new Linux version of the popular Steam gaming platform.

80 Command Line: CUPS

Configuring and managing printing at the command line.

84 Timeline Tools

Chart world history with these timeline tools.

FreeBSD

Version 9.1

Includes: → Netmap Framework
→ Filesystem ZFS
